

Dear Residents,

NEW Utility Rates Bylaw: New Utility Rates will take effect on your next Utility Billing being sent out in May 2024. Notably an increase to the minimum Utility billing of \$4.65 will take effect and additionally, please be advised an increase to water usage over in excess of 1000 gallons monthly will see a more substantial increase.

PROPOSED Utility Bylaws: As part of our commitment to transparency and community involvement, we want to inform you about proposed changes to our utility bylaws. Langham Town Council is considering amendments to both the Utility Administration Bylaw and the implementation of a new Private Sewer and Water Service Connection Bylaw.

Utility Administration Bylaw: The amendments to the Utility Administration Bylaws notable changes are primarily concerning the relocation of specifics regarding sewer and water service connections, as well as adjustments to the fee schedule.

Private Sewer and Water Service Connection Bylaw: This proposed bylaw includes significant changes, such as the reintroduction of the private sewer cleaning service performed by the Town and the establishment of a new private service connections assistance program.

Your Feedback Matters: Langham Town Council values your input and encourages community feedback on these proposed bylaws. Public feedback will be considered before finalizing the amendments and implementing the new bylaws. Please take the time to review the drafts and submit your feedback by April 18 2024 to office@langham.ca, or by completing the back of this notice and submitting to the Town Office.

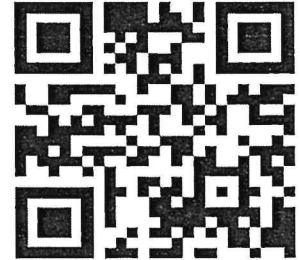

Your participation is essential in shaping the future of our community's utility services. Together, we can ensure that our bylaws reflect the needs and priorities of our residents. Thank you for your attention to this matter.

Sincerely,

Jamie Nagy, CAO
Town of Langham
